

## ***Delivering Convenient One-Key Lock Technology***

---

**Company:** STRATTEC® Security Corporation is the world's largest manufacturer of automotive locks, keys and related access control products, and is the primary lock supplier to Ford, GM and Chrysler. STRATTEC's history in the automotive business spans 100 years.

**Products:** STRATTEC offers BOLT® (Breakthrough One-Key Lock) Series locks, which open with a vehicle's ignition key, eliminating the need to carry extra keys or remember a combination. BOLT delivers convenient security with a variety of lock styles:

- Padlock 2.0
- 5/8" and 1/2" Receiver Lock
- Jeep Spare Tire Lock
- Jeep Hood Lock
- GM Tailgate Handle
- Off-Vehicle Coupler Lock
- Cable Lock
- Coupler Pin Lock
- Toolbox Latch
- Lock Cylinder
- J-Mount Hi-Lift Jack Mount
- 5th Wheel King Pin Locking System

**Technology:** The patented one-key lock technology is designed to permanently program the BOLT lock to the specific vehicle's ignition key. When drivers insert their ignition key into the lock cylinder, spring-loaded plate tumblers move up and down until they are matched exactly to that key. The first time the key is rotated, the cylinder is uniquely coded to only that key. Any number of BOLT locks may be set to open with the same vehicle key.

**MSRP:** BOLT locks start at \$19.99

**Warranty:** STRATTEC warrants, to the original retail purchaser, its BOLT Series products to be free from defects in workmanship and materials for so long as product is owned by original purchaser (normal wear and tear, abuse and misuse excepted).
